

Work Commences On Big Siphon

Thirty Second Feet of Water Coming
Into the Lehi Fields.

Wednesday a carload of material was unloaded at the switch on the D. & R. G. this side of the Narrows, for the construction of the big siphon that will carry the water from the Utah Lake Canal across Jordan river to a canal that will bring Utah lake water into the Lehi fields.

Piles will be driven in the river on which the siphon will rest. It will be built of wood staves bound with iron and will have a capacity of 30 second feet of water or about 12 irrigation streams. It will be about one-fourth mile in length. Owen Gray & Co. have the contract for its installation.

It will cross the Jordan river on the Trinniman Bros. land north of the new interurban railroad bridge. From this point it will take in a part of the Bone Bros. land crossing under the D. & R. G. track by means of a big steel inverted siphon. The canal crosses the state road near a point where the Salt Lake & Western crosses. It again crosses the state road near where the road branches off between the homes of Alfred Fox and Melvin Johnson. The canal follows the east side of this road and empties into the new survey ditch near Henry Davis' home. Coming southeast it passes near the Thomas R. Jones home and will empty into the general system of the Lehi Irrigation company at a point near Francis Childs' new home in the garden lots.

For the present the water will not be commingled with the water of the Lehi Irrigation company, but under the law it may be substituted and the canyon water be used on the higher lands.

Many farmers have signified a willingness to take some of the water, and those who subscribe now will be given the privilege of doing so at a price of \$40 per acre. However, this is the same price now being charged for water on the west side of Jordan and after this season the price will be advanced.

Work on the canal will be commenced just as soon as the weather makes it so that it may be kept going. Hereafter there will be no water famine in the Lehi fields, as 30 second feet added to the present supply will be enough to flood every acre.

Found Guilty of Illicit Liquor Selling

District Court Upholds Verdict of
Justice's Court.

The Fourth Judicial District Court this week found Thomas Woodhouse guilty of unlawfully selling six bottles of beer in the Blue Rock Club on the night that Smuin's Dance Hall was opened. The case was tried before a jury who were out but a short time before bringing in a verdict.

Mr. Woodhouse was found guilty of the same offense in Justice Webb's court some time ago and was fined \$200 and 30 days in the city jail. He appealed the case with the above results. It is quite probable that Judge Morgan will affirm the same fine given by the lower court.

LEHI LOCALS

Mrs. M. W. Ingalls is at the Holy Cross hospital for medical treatment.

A new baby arrived at the home of Mr. and Mrs. William Karren yesterday.

Mayor W. F. Gurney was a Provo visitor in attendance at the Woodhouse trial.

Mrs. Nate Rockwell has recently undergone an operation for the removal of a growth.

Joseph Smith left this week for Logan where he will spend the winter in the Agricultural College.

The young friends of Miss Edna Gibb gave her a pleasant surprise party last Friday evening.

Mr. and Mrs. C. C. Crabb entertained at dinner Thursday in honor of George E. Kirkham, who is returning to Canada this week.

Mrs. William Wing gave a six o'clock dinner to a dozen friends Monday, spending the balance of the evening in an informal way.

Mr. and Mrs. W. E. Racker spent the early part of the week in Salt Lake City the guests of their daughter, Mrs. J. H. Carson.

The Lehi high school is preparing a high class concert that will be given in the near future. Before the school year ends the school will present an opera under the direction of Prof. Abe Anderson.

The Misses Marvel and Lota Taylor gave a candy pull to a number of their young lady and gentlemen friends Wednesday evening.

An excursion train will be run from the south end of the county to the Smuin Dancing Academy in the near future.

Mr. and Mrs. Daryl Fowler entertained at a house party Saturday evening, spending the hours playing parlor games and serving refreshments.

Mrs. Robert Ball and Mrs. John Cooper successfully engineered a surprise party on Mr. and Mrs. LeRoy Davis Wednesday evening.

The officers of the Second Ward Relief Society entertained the members with refreshments after the regular meeting Thursday afternoon.

Mr. and Mrs. Parley Austin entertained yesterday in honor of Mr. and Mrs. John Folk, who are visiting from California, and Mrs. Z. Whittaker of Nephi.

Marriages at Lehi Junction.
LeRoy Anderson and Miss Daisy May Kinder went to Provo Monday secured a license and were married. The same day David Davis, son of Joseph Davis, was married to Miss Pearl Loader of Pleasant Grove.

There was a good attendance at the Mother's club meeting held in the New West Cottage Thursday afternoon. Mrs. Sidney Gilchrist gave a paper on the schools of China and Miss Smith gave a talk on teeth. The club is planning an apron bazaar for the near future.

Utah's Canning Business

The National Copper Bank of Salt Lake City issues a monthly bulletin the title of "Trade and Finance Letter." There is nothing better issued in the way of industrial information than is contained in these letters. The last one deals with sugar beets, canning and fruit marketing. As Lehi is just now talking a canning plant the information on this subject will be full of interest. The letter says:

Canning.
We doubt whether the magnitude of the canning industry is appreciated by many other than those directly interested. There are 27 plants of the Utah Canning Association, located at the following points: Springville, Provo, Murray, Woods Cross, Kayville, Layton, Clearfield, Syracuse (2), Hooper, Clinton, Roy (2), Riverdale, Ogden (5), West Weber, Perry, Willard, Plain City, Brigham (2), Uintah and Morgan. Besides these there are plants at Tremonton, Spanish Fork, Fillmore, Sandy, Draper and Green River, the last four of which were started within the last two years and have not yet joined the Association.

The 27 plants in the Association handled the bulk of the business and the total output for the season was as follows:

Products	Cases	Quarts
Tomatoes	623,434	15,116,016
Peas	193,276	4,699,008
String Beans	19,955	595,584
Catsup	40,943	1,324,152
Pumpkin	1,437	41,664
Fruits	44,047	1,413,864
Miscellaneous	28,000	700,000

The products handled were hominy, Worcestershire sauce, tomatoes, peas, string beans, pumpkin, apricots, asparagus, jams, peaches, plums, gooseberries, sauerkraut, soups, pears, strawberries, raspberries, pork and beans, catsup, cherries, loganberries, apples, rhubarb. The value of the

In One Minute! Clogged Nostrils Open Head-Colds And Catarrh Go ---Try This!

Breathe Freely! Clears Stuffed-up
Inflamed Nose and Head Stops
Catarrhal Discharge. Cures
Dull Headache.

Try "Ely's Cream Balm."
Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone. End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm

total output was in the neighborhood of \$2,000,000, about one-half of which is represented by the tomato pack. The total pack was about 34 per cent greater than last year's.

It is estimated that 3,150 acres were used in the raising of the tomatoes alone. Over \$5,000,000 was spent by the factories for the raw product in addition to the expenses for fuel, cans, labels and other expenses in connection with the process of canning. There was a total of \$500,000 paid out in wages by the associated factories.

Each factory markets its products under its own labels and each factory guarantees its products until the 30th of June following the pack. The market for the products is largely found in Utah, Wyoming, Colorado, Idaho, Nevada, Montana, Eastern Washington and Eastern Oregon, and the business is unusually well protected against speculative losses by the fact that it is customary to make advance contracts for practically the whole pack. This contracting usually begins about the 15th of January, and until May, is carried on in the states above mentioned by the individual factories. By that time about two-thirds of the prospective pack is likely to have been contracted for. Then the Sales Committee of the Association steps in and sells the balance of the estimated pack in the East. Deliveries are made between September 1st and January 1st, and by the latter date the entire product of the factories is ordinarily out of their hands. This year has been marked by certain concessions in freight rates and by a consequent enlarging of the direct field of the factories.

All the canneries contract for cans at the first of the year and it is estimated that the factories use in the neighborhood of 25,000,000 cans a year, representing a cost of close to \$500,000. It has been urged for a number of years by certain members of the Association that a can manufactory be established, inasmuch as the condensed milk factories and the canning factories and several other smaller industries could use approximately 70,000,000 cans a year, representing a value of over \$1,000,000. It is now stated that plans have practically been completed for the organization of such a factory. Those who have determined to undertake this enterprise are all local people and members of the Canning Association.

LOCAL DRUGGIST SAYS: "TAKE ONLY ONE DOSE"

We want to tell those in Lehi suffering from stomach or bowel trouble that we are agents for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-I-ka, the remedy which became famous by curing appendicitis. This is the most thorough bowel cleanser known and JUST ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. You will be surprised at the QUICK action of Adler-I-ka. H. B. Merrihew, Lehi, Utah. (Adv.)

TRUTH WILL OUT.

Fogg—I understand Dobson married a rich widow.
Fenderson—So he understood, too; but it proves to be a misunderstanding.

SIMPLE AND EASY.

are the "Rules for Beauty." Keep the body clean and healthy and then aid nature by using our toilet goods to keep the health attained beauty up to the mark. Simple, isn't it? And not at all expensive, as you'll learn when you call.

NOTICE TO WATER USERS

State Engineer's Office, Salt Lake City, Utah, December 26, 1913.

Notice is hereby given that James Grove, whose post office address is Provo, Utah, made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909, to appropriate five and four-tenths (5.4) cubic feet of water per second from Utah Lake, Utah County, Utah. Said water was to have been diverted by means of a pump, pipe line and canal, at a point which bears south 25 degrees east 10.156 feet distant of the southeast corner of Section 31, Township 6 south, Range 1 east, Salt Lake base and meridian, and conveyed for a distance of 4,000 feet and there used from April 1 to October 15, inclusive; of each year, to irrigate 339 acres of land embraced in Section 7 and 18, Township 7 south, Range 1 east, Salt Lake base and meridian. The Pelican Point Water Company, the assignee of James Grove, by its president, W. S. Ramer, whose post office address is Salt Lake City, Utah, now makes application in accordance with the requirements of Section 1288x24, Session Laws of Utah, 1909, to change the place of use of said water in order to irrigate 575 acres of land embraced in Sections 6, 7, 18 and 19, Township 7 south, Range 1 east, and Sections 13 and 24, Township 7 south, Range 1 west, Salt Lake base and meridian. This application is designated in the State Engineer's office as No. a191.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice.

W. D. BEERS,
State Engineer.
Date of first publication January 8, 1914, date of completion of publication February 7, 1914.

DELINQUENT NOTICE.

North Scranton Mining Company, principal place of business Lehi, Utah.

Notice: There are delinquent upon the following described stock, on account of Assessment No. 10, levied on the 26th day of November, 1913, the several amounts set opposite the names of the respective shareholders as follows:

Cert.	Name	Shares	Amount
80	D. G. Burton	1,000	\$ 2.00
104	Thbo. Bateman	1,500	3.00

NOTICE TO WATER USERS

State Engineer's Office, Salt Lake City, Utah, December 11, 1913.

Notice is hereby given that Mansfield L. Snow, whose post office address is Salt Lake City, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909 and 1911, to appropriate one hundred (100) acre-feet of water from West Lehi Canyon Creek, Utah County, Utah. Said water will be stored from January 1 to December 31, inclusive, of each year, in a reservoir embraced in Section 20, Township 5 south, Range 1 West, Salt Lake base meridian. The center of the impounding dam is situated at a point which lies 2,270 feet north and 745 feet east of the southwest corner of Section 20, Township 5 south, Range 1 West, Salt Lake base meridian. The water so stored will be released from said reservoir and conveyed by means of several ditches ranging from 50 to 100 feet in length, and there used from January 1 to December 31, inclusive, of each year for domestic and municipal purposes.

This application is designated in the State Engineer's office as No. 5288.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice.

W. D. BEERS, State Engineer.
Date of first publication December 18, 1913, date of completion of publication January 17, 1914.

DELINQUENT NOTICE

Utah-Oregon Mining Company, principal place of business, Lehi, Utah.

There are delinquent upon the following described stock on account of assessment No. 4, levied on the 8th day of December, 1913, the several amounts set opposite the names of the respective shareholders as follows:

Name	Shares	Amount
Angus H. Gibson	12,000	\$ 6.00
Eugene Roberts	12,821	6.41
Hyrum J. Evans	22,500	11.25
John S. Evans	23,000	11.75
William Rolfe	10,000	5.00
James W. Clark	87,974	43.98
H. C. Holbrook	5,000	2.50
Samuel J. Taylor	70,644	35.32

And in accordance with law and an order of the board of directors made on the 8th day of December, 1913, so many shares of each parcel of such stock as may be necessary will be sold at public auction at Coter's grocery store, Lehi, Utah, on the 26th day of January, 1914, at the hour of six o'clock p. m. to pay delinquent assessments thereon, together with the cost of advertising and this sale.

ROBERT BALL, Secretary.

NOTICE TO WATER USERS.

State Engineer's Office, Salt Lake City, Utah, December 8, 1913.

Notice is hereby given that F. J. McDaniel, et al., whose post office address is American Fork, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909 and 1911, to appropriate ten (10) cubic feet of water per second from Lehi Creek and Chipman Creek, Utah County, Utah. Part of said water will be diverted from Dry Creek, at a point which bears north 48 degrees 29 minutes east 7,987 feet distant from the northeast corner of Section 17, Township 4 south, Range 2 east, Salt Lake base meridian. Part of said water will be diverted from Chipman Creek at a point which lies 2,853 feet north and 6,146 feet east from the above described corner. The water will be conveyed from each point, by means of wood stave pipe lines, to a point which bears north 32 degrees 20 minutes east 5,106 feet distant from the northeast corner of Section 17, Township 4 south, Range 2 east, Salt Lake base meridian, where it will be discharged into a steel pipe line, and conveyed for a distance of 5,100 feet and there used to develop power for the purpose of electric lighting and propelling machinery at Alpine, Utah. After having been so diverted and used, the water will be returned to the natural channel of the stream at a point which bears north 12 degrees 24 minutes east 315 feet distant from the northeast corner of Section 17, Township 4 south, Range 2 east, Salt Lake base meridian. This application is designated in the State Engineer's office as No. 5417.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice.
